

## Instructions for Authors

The Journal aims to promote research in all relevant areas of molecular & cellular biology and biotechnology in the Asia Pacific region through publication of research articles, both basic and applied. Papers must be written in English. Standard papers, research notes and review articles will be considered for publication. Submission of a manuscript will be taken to imply that it reports unpublished work that is not under consideration for publication elsewhere, that all authors have agreed to its submission and that, if accepted, it will not be published again in the same form in any language without the consent of the Malaysian Society for Molecular Biology & Biotechnology. It is the Journal's policy that copyright be assigned to the Malaysian Society for Molecular Biology & Biotechnology in respect of all papers accepted for publication. Statements and opinions expressed in the articles and communications herein are those of the author(s) and not necessarily those of the Editor(s) or the publisher. No responsibility can be accepted for any inaccuracies or omissions, and no guarantee is made in respect to the contents.
